Smart Security Week 2018: 120+ security experts take the stage to advance Identity, IoT & Cybersecurity

Next September 24-26th in Marseille, SMART SECURITY WEEK will welcome 600 trusted technologies professionals at its conferences and exhibition.

2018 key topics include techs advances in digital identity, strong authentication, end-to-end IoT security, AI-based cybersecurity... and the latest large-scale cybersecurity initiatives.

Marseille, France, September 12th 2018 – Smart Security Week, the “Trusted Innovation Summer Forum”, is all set to gather the broad Digital Identity & Cybersecurity communities next September 24-26 in Marseille Provence.

Over 2.5 days, along four conferences and their joint exhibition, 600 participants from IT industry, other Verticals and public sector will exchange on the latest trusted technologies innovation, opportunities and challenges. Starting with the Grand Opening addressing our new Privacy era, the key 2018 themes include ID and IoT Security with Blockchain, Cybersecurity latest regulations worldwide, Biometrics latest developments, AI for cybersecurity, consumer IoT devices security, IoT networks security among others.

Over 120 speakers will be on stage of the four parallel conferences along 25 thematic tracks.

Among the 2018 highlights, let's mention:

► **Over 120 eminent speakers will address** the hottest topics:

- Strong ID and authentication at **Identity & Cybersecurity Innovation World**
- Digital ID public schemes at **Government ID World**
- End-to-end IoT security at **Connect Security World**
- AI-based cybersecurity at **Predictive Security World**

See below the detailed profiles of the conferences.

► **Keynotes and speakers including:**

- Marion Andrillat, Business Development manager, **CEA-Leti**
- Raghu Dev, Global IAM Director, **BNY Mellon**
- Jim Dray, Science Adviser, **US NIST**
- Jimmy Fong, VP of Sales, **InAuth**
- Laurent Gomez, Co-Innovation Lead for Internet of Things, **SAP Security Research**
- Slawomir Górniak, Expert in security tools and architecture, **ENISA**
- Stefane Mouille, President, **Eurosmart**
- Dr. Takashi Obi, Associate Professor, **Tokyo Institute of Technology**
